Chief, FBID

Recapitulation of FBID General Requirements for Scrutiny of Communist Bloc Press.

1. As nearly two years have passed since FDD assumed responsibility for the scrutiny of Bloc political journals in support of FBID propaganda analysis, it is believed that the attached recapitulation of FBID's general requirements for exploitation of the communist periodicals may be useful to FDD. These requirements represent a minimum exploitation program. Since the information extracted from the periodicals is vital to the scope and completeness of FBID propaganda analysis, all possible effort is requested to expand the processing of these very important materials.

2. It is also suggested that orientations between FDD and FBID be resumed at an early date. In this connection, FBID would be glad to orient [redacted] of FDD in the Radio Propaganda Branch for two weeks at your convenience.

3. Your comments regarding the details or implementation of these services would be appreciated.
